ICNS 2024

- The 5th International Congress on Natural Sciences with Sisterhood Universities -

September 26–28, 2024, Niigata University, Japan

The International Congress on Natural Sciences with Sisterhood Universities (ICNS) was initiated in 2011 by Prof. Tae Hwa Kim (former Dean, College of Natural Sciences, Pukyong National University, Busan, Korea), Prof. Morimitsu Tanimoto (former Dean, Faculty of Science, Niigata University, Niigata, Japan) and Prof. Wen-Chun Hong (former Dean, College of Science, National Sun Yat-Sen University, Kaohsiung, Taiwan) to establish a forum for the exchange of academic resources among sisterhood universities. The previous congresses were held in Busan (Korea, 2011), Kaosiung (Taiwan, 2012), Niigata (Japan, 2013) and Changhua (Taiwan, 2015).

It was postponed for 4 years due to the pandemic, and will be held for the first time in 9 years. We would like to resume our suspended comprehensive international exchanges, and contribute to the revitalization of individual exchanges. We sincerely encourage as many people as possible to take advantage of this opportunity to join this exchange.
