I. ABOUT POLONEZ

POLONEZ is an NCN fellowship programme, co-funded from the EU H2020 Marie Skłodowska-Curie Actions, supporting international incoming researchers working in the broad field of **basic research**, regardless of their nationality. It is targeted at researchers who may apply for 12- or 24-month fellowships in host institutions in Poland, both academic and non-academic, public or private. Apart from living and mobility allowances, amounting to € 4 350 gross per month (and a family allowance of € 300 gross per month, which will be paid taking due account of the researcher's family situation), they are offered a grant to cover the costs of the proposed research. The fellows are also given an opportunity to participate in a variety of research and non-research training programmes provided by the NCN and the host institution.

II. APPLICANTS

The applicant is a researcher with a PhD degree or at least four years of full-time equivalent research experience who has not resided or carried out their main activity (work, studies, etc.) in Poland for more than 12 months in the 3 years immediately prior to the call announcement (15th of September 2015), the **timeframe is: 15th of September 2012 – 14th September 2015**.
